

Junior Environmental Consultant (m/f/x)-Bachelors (Leuven or Ghent)

The company

ARCHE Consulting is based in Belgium and has offices in Ghent and Leuven. ARCHE Consulting provides regulatory support in different chemical legislative frameworks such as Chemical Strategy for Sustainability (CSS-green Deal), REACH, Biocides, Plant Protection Products, Classification and Labeling (CLP/GHS), Cradle to Cradle, Cosmetics etc., to a wide range of clients.

Our Vision

Our vision statement is build around the following core intentions

1. To support our clients with integrative strategies for **all 'hazard and risk assessment based' regulations** related to the production and use of chemical substances and products
2. **To be seen as the leading experts in the EU related to inorganic risk assessment and biocidal products** regulation
3. **To provide the best working conditions for employees** seeking opportunities to deliver high quality work in an attractive working environment.
4. **To encourage innovative thinking** allowing ARCHE's client to be the first beneficiaries of newly developed concepts and tools.

Job description

To support the continued growth of ARCHE Consulting dealing with chemical and product health, sustainability, safety and environmental programs of multi-national corporations from varied industrial sectors we are looking for a Junior Environmental Consultant (m/f/x) who would like to join our team in Ghent or Leuven.

As a Junior Environmental Consultant you will be:

- Part of our Cradle to Cradle (C2C) team and assist companies in the Cradle to Cradle certification process (<https://www.arche-consulting.be/our-services/cradle-to-cradle-certification/>), EU-Ecolabel, circular economy
- providing support and assist in technical dossier preparation for different chemical regulations (REACH, biocides transitional dossiers),
- provide assistance in audits getting companies compliant within different chemical regulatory frameworks
- remaining aware of updates in regulatory guidance within your field,
- communicating with clients and regulatory authorities if necessary.

Your Profile:

Qualifications for this position include

- Bachelors degree in environmental sciences, chemistry and/or related sub-disciplines,
- good organizational skills to handle short tasks, requests and checks,
- broad interest in chemicals / biocides efficacy, physico-chemistry, risk assessment and sustainability,
- customer oriented and good communication skills,
- good oral and written communication skills,
- fluent in English,
- 1-2 years experience in a similar position is a plus but not a prerequisite

What do we offer:

- Internal and external training (e.g. conferences; training courses),
- healthy work-life balance (e.g. partial working from home),
- attractive company culture (monthly breakfast; weekly sport; yearly teambuilding activities and kids day),
- competitive and flexible salary complemented with additional 'flex income plan',
- flexible and dynamic work environment,
- international dimension,
- extra benefits: group insurance (pension plan), bonus encouragement system, hospitalization insurance,
- career development support,
- holidays (20 + 12 days).

We are seeking team members who desire to work on diverse and challenging projects. We need individuals with the ability to communicate effectively with internal staff and external

clients and management. We look for a strong work ethic, positive attitude and people who like to have fun with their work and team.

If you are interested in this career and would like to shape our and your future of our modern and team-oriented company, **we are looking forward to receiving your application sent by mail to *marnix.vangheluwe@arche-consulting.be***
